After having played in New York and Chicago to audiences of 4,000 persons, Jan Kubelik, the young Czech violinist, was received at English's Opera House last night by an assemblage that did not fill | which is served as an accompaniment. the theater. He is now making his first visit to this country. He was heralded far in advance, for he came under the management of Daniel Frohman, one of the most skillful promoters of theatrical enterprises. The newspapers of New York and Chicago chronicled his enthusiastic receptions in those cities, where it became customary for women to rush to the edge of the platform at the close of his recitals and beg him for more music. It was advertised that Kubelik, twenty-one years old, and the son of a market gardener, would re- vided the place where each opened the ceive for his winter's work in the United | season. constant, amused smile. In the Wichiawski "Carneval Russe," the Paganini D major concerto and the Bach "Praeludium," he mastered the most difficult constructions in a style indescribably marvelous to the layman; the musicians in the audience heard and saw the violinist do things that they will be analyzing and describing for months to come. The Bach air for the G string, with its full, contenting cords, was played with fine softness, roundness and great volume of tone. An exquisite melody was the Pierne "Serenade," which was given as the first encore, and the same singing quality that is the ultimate thing in violin playing was presented in a Schumann composition, also
